All,

As an extremely concerned parent regarding the education of our (2) 10 grade students that are partially attending B.A. I would like a detailed explanation other than (there is no Instructional model changes) as to why Bacon Acadamy remains in this current holding pattern. (See E-mail below that was sent from our superintendent.

It has been a (Full) year of (Loosing valuable education that is irreversible. No words cannot express our

frustration and dissatisfaction especially given the (Proven) fact that the transmission rate at schools is extremely low and that most of the transmissions have happened outside of our schools.

In the mean time, my wife who works in the heath-care Industry reports everyday and has been personally dealing with this Pandemic as a front line worker. Furthermore, I myself as an (Essential worker has also has been reporting to work every day.

Now, I’m not going to get into the politics of the teachers union, but I will say this... If I could afford private schools, I would remove our boys from Public Schools Immediately.

In Closing, I think that this is the biggest injustice I have seen in my lifetime and feel extremely sorry for (All) the (Children) who have lost something so valuable as an Education in addition to jeopardizing their Mental Health well being.

Signed,

Concerned Parent
